1. Swipe down from the top of the screen and select WiFi. Make sure WiFi is on. Select 'eduroam' from the available WiFi networks

2 Enter your username and password: There are two options, read this bit carefully:1: If you are setting up your device to use at a PETROC Campus

Set Username to your Petroc username without @ petroc.ac.uk added on to the end. For example: ab12345

2 If you have a Petroc account and are setting up your device to use at another institution that you are visiting that provides eduroam:

Set Username to your Petroc username with @ petroc.ac.uk added on to the end. For example: ab12345@ petroc.ac.uk

At a Petroc Campus

At another institution

3 Read the screen carefully to make sure it is issued to BPL-RADO2 and issued by PetrocCA as below, and if it is dick on Accept. You will then be successfully connected to eduroam.

- 4. Open your web browser and navigate to <u>www.petroc.ac.uk/eduroam</u>
- 5. Click on the link to download the certificate to improve your web browsing while on a Petroc Campus. Save it and access it from your downloads area, then dick to install the certificate.

6 You are now ready to start web browsing.
